

LEINENKUGEL'S 150TH  
ANNIVERSARY**HON. RON KIND**

OF WISCONSIN

IN THE HOUSE OF REPRESENTATIVES

*Friday, July 28, 2017*

Mr. KIND. Mr. Speaker, I rise today in celebration of the 150th Anniversary of the Jacob Leinenkugel Brewing Company. As every Wisconsiner knows, Leinenkugel's is a staple of our state's economy and has been for 150 years.

In my district, Chippewa Falls, WI is home to one of the original Leinenkugel breweries and is still proudly producing union made Leinenkugel beer today. In fact, Leinenkugel's is not only one of the oldest continuously operating breweries in the United States; it is also the 4th largest craft brewer in our country.

Leinenkugel Brewing Company has also been a dynamic driver of tourism in my district and across the state of Wisconsin. The brewery's visitor center, the Leinie Lodge, draws over 125,000 visitors annually making it one of the most prominent tourist destinations in our great state of Wisconsin.

Leinenkugel's success, however, is not only because they manufacture great tasting beer, but it's also because they embody the Wisconsin notion of service to others. The Leinenkugel family has a long history of public service, dating back to World War II when Bill Leinenkugel served as a United States Marine in the South Pacific. It was this same passion for service that propelled Bill's 40-year career with the brewing company. Two of Bill's sons, the fifth generation of the family to work for the brewery, Jake and Dick also served as officers in the United States Marine Corps. In addition to their service as Marines, Dick Leinenkugel served as a County Board Supervisor in Waukesha County, WI and as Wisconsin's Secretary of Commerce from 2008 until 2010. Jake Leinenkugel is retired from the company but continues to honor the Leinenkugel tradition of service as a Senior White House Advisor to the Veterans Administration. The dedication for community involvement and support has been passed down through generations and continues to shape the way in which the Leinenkugel family does business in western Wisconsin today.

Whether it's brewing Leinenkugel beer in Chippewa Falls, WI or serving our country in the Marines, the Leinenkugel family consistently represents the hardworking values of all Wisconsiners. With this in mind, I'd like to raise a Summer Shandy and congratulate the Jacob Leinenkugel Brewing Company and Leinenkugel family on 150 years of dedicated service to western Wisconsin.

MEMORIAL TRIBUTE TO  
KATHERINE JENNINGS MOXHAM**HON. CHELLIE PINGREE**

OF MAINE

IN THE HOUSE OF REPRESENTATIVES

*Friday, July 28, 2017*

Ms. PINGREE. Mr. Speaker, I rise today to honor the memory of Katherine Jennings Moxham who passed away on July 7, 2017.

Katherine Jennings "Kate" Moxham, 46, a resident of Kennebunk, Maine, died Friday,

July 7, 2017 at Maine Medical Center in Portland from injuries received in an accident while riding a bike from home to the town library. She was an advocate for education, literature, science, the environment and personal rights, regardless of race, gender or sexual orientation.

Kate was born May 5, 1971 in Kingston, PA, the daughter of Donald Bryden Jennings and Freda Ann Lockyer Jennings, and is a graduate of Merrimack College in North Andover, MA with a BA degree in history.

Kate was constantly seeking knowledge and educating. She loved reading, had a huge passion for libraries and learning, and was a constant advocate for both. She was vocal about what she stood for and fought for what she believed in. Having been awakened more recently (as she put it), Kate participated in the recent march for Women in Washington, DC, and in the March for Science in Boston.

Bringing people together to make connections and develop relationships, within her family, her wide circle of friends and her community was a hugely important part of her life. She was always the brightest light in the room wherever she was. Her laugh was infectious and her wit kept others in stitches. And her heart was as big as could be. She would help others without them needing to ask on a daily basis. And if they asked, she was right there.

One of Kate's passions was literature, and getting kids within her realm to pick up on that passion in any way she could. She was a volunteer at the Kennebunk Free Library, and served on its board of Trustees, including a term as board chair. Kate worked as librarian in the Kennebunk School System, at the Sea Road School library and also the Mildred L. Day School Library; created summer reading lists for all students from elementary grades through junior high, and created personal lists for students she knew so they would be challenged, intrigued, and enjoy the fun of a good book.

First and foremost was Kate's love of her immediate family—husband Todd of 17 years, and sons Tyler (15) and Riley (13). She was a tireless advocate for Tyler and Riley in the school system and in life. She loved to travel and show them new places and things to expand their minds, and to show them how to live in a community, taking care of others. She was planning to go next spring on a service trip with Tyler to Mississippi with a team from South Congregational Church.

Survivors include her husband Todd Moxham, two sons Tyler Moxham and Riley Moxham, all of Kennebunk, Maine.

DONATTI RECEIVES PRESTIGIOUS  
FULBRIGHT AWARD**HON. PETE OLSON**

OF TEXAS

IN THE HOUSE OF REPRESENTATIVES

*Friday, July 28, 2017*

Mr. OLSON. Mr. Speaker, I rise today to congratulate Michael Donatti of Pearland, TX, for receiving a Fulbright award to work on his Master of Science degree at the University of Bristol in the UK.

Michael is a Rice University student studying environmental policy and management. His environmental policy program will cover corporate environmental sustainability, legal

and economic frameworks and climate science, and will require him to write a thesis. Each year the Fulbright Program grants students the opportunity to study, research or teach English abroad in an effort to internationalize communities and campuses around the world. Fulbright scholars focus on the conditions and challenges differing regions face, as well as building valuable U.S. relationships.

On behalf of the Twenty-Second Congressional District of Texas, congratulations again to Michael for receiving this Fulbright award. Keep up the great work.

HONORING THE MEMORY OF RON  
VAN GUNDY**HON. DAN NEWHOUSE**

OF WASHINGTON

IN THE HOUSE OF REPRESENTATIVES

*Friday, July 28, 2017*

Mr. NEWHOUSE. Mr. Speaker, I rise today to honor the life of a respected constituent of mine, Ron Van Gundy.

Since 1968, Ron devoted his time and energy to the Roza Irrigation District in the Yakima Basin. His collaborative efforts throughout the years have guided the district through several major droughts, enhanced water quality, and improved conservation efforts.

In Central Washington, water is often times a luxury, and it takes an intelligent, visionary mind to navigate the unique irrigation challenges that face our farmers. Ron exhibited an unmatched sense of leadership and cultivated strong relationships throughout the region and state-wide. He did all of this to gain support for one of Washington's most important and vulnerable agricultural districts.

Ron will be missed by many, and I am proud to have worked with him. We can honor his legacy by continuing his work and demonstrating the passion he had for water solutions in Washington's 4th District.

I ask my colleagues to please join me in remembering Ron Van Gundy.

CELEBRATING THE CITY OF  
PARAMOUNT'S 60TH ANNIVERSARY**HON. LUCILLE ROYBAL-ALLARD**

OF CALIFORNIA

IN THE HOUSE OF REPRESENTATIVES

*Friday, July 28, 2017*

Ms. ROYBAL-ALLARD. Mr. Speaker, I rise to congratulate the City of Paramount on its 60th anniversary. I am deeply honored to represent this hub of innovation and history as part of California's 40th Congressional District, and I hope my colleagues will join me in paying tribute to Paramount and its residents.

The City of Paramount was incorporated in 1957 after two communities, Hynes and Clearwater, merged. The unincorporated Hynes-Clearwater community staged a hard-fought campaign, "Save Paramount for Paramount," contesting its annexation from surrounding communities, and secured the right to self-governance.

The city we now call Paramount has been home to a rich and enduring history. The city's "Hay Tree," where the price of the world's hay used to be set each day, stands today as a
